

# 20<sup>th</sup> Global Congress on Manufacturing and Management Intelligent Systems in Production Engineering and Management

2-4 December 2026  
Wrocław, Poland  
Wrocław University of Science and Technology

## CONFERENCE CHAIR

Prof. Anna Burduk  
Wrocław University of Science and Technology, Poland

CONFERENCE WEBSITE

[gcmm.pwr.edu.pl](http://gcmm.pwr.edu.pl)

CONTACT

[gcmm@pwr.edu.pl](mailto:gcmm@pwr.edu.pl)

University of Minho  
School of Engineering

## PUBLICATION OPPORTUNITIES

Accepted papers will be published in Springer conference proceedings:

- Lecture Notes in Mechanical Engineering
- Lecture Notes in Networks and Systems

Selected papers will be invited to extended versions in international journals indexed in WoS and Scopus.

**VIT**  
Vellore Institute of Technology  
(Deemed to be University under section 3 of UGC Act, 1956)

Wrocław University of Science and Technology

Department of  
Production Engineering  
and Management

The Global Congress on Manufacturing and Management (GCMM) is an international scientific platform bringing together leading researchers, industry experts, and practitioners to exchange knowledge and experiences in the field of manufacturing and production management.

The congress focuses on current challenges related to globalization, digital transformation, and sustainable development in manufacturing systems. GCMM has been attracting high-quality research contributions and participants from over 25 countries worldwide.

The 20th anniversary edition of the Congress will be held in Poland at Wrocław University of Science and Technology.

More information and registration:

## CONFERENCE TOPICS

The conference covers a wide range of topics related to manufacturing and management, including:

- Production Systems Management, Organization and Maintenance
  - Production Planning, Scheduling and Project Management
  - Manufacturing Technology and Advanced Materials Processing
  - Industry 4.0, Industry 5.0 and Cyber-Physical Systems
  - Robotics, Automation and Intelligent Control Systems
  - Modelling, Simulation and Design of Manufacturing Systems
  - Quality Management and Lean Manufacturing
  - Supply Chain Management and Distributed Manufacturing
  - Reliability, Risk Assessment and Data-Driven Decision Support
  - Green Production and Circular Economy
  - Knowledge Management, Data Mining and Decision Support Systems
  - Human Aspects in Industry and Production Systems
  - Life Sciences Manufacturing
-
